

*Missionary Update  
Khen & Rith Tombing  
January 2016*

Dear Prayer Partners,

This morning at 4:35 AM a major earthquake with a magnitude of 6.7 on the Richter scale at the depth of 17 km below the ground rocked us. We were so scared but safe! Praise the Lord!

While the eastern part of Manipur experienced some major damages and loss of lives and properties, we had a few widow glasses broken, and cracks on some of our concrete building structures.

Thank you for your prayers as we currently go through political chaos and natural calamities. The 9 dead bodies are still lying in our District Hospital. No political demands are met thus far - so the dead bodies remain in the morgue more than 100 days as a political bargaining chip.

To God be the glory for the great things he has been doing in our ministry.
